LOUISVILLE, KY

Free Training

October 12 - 15, 2015

Monday – October 12th

Overview of the Kentucky OSH Program

8:30 - 11:30 a.m.

This session discusses the obligation to provide a safe and healthy workplace, free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, and safety and health topics currently being considered for future standards and policies.

Injury and Illness Recordkeeping

12:30 - 4:30 p.m.

This session is for those persons responsible for maintaining the revised injury and illness records. The forms 300, 301, 300A will be covered. The regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting. (Students will receive an OTI certificate for this class)

Tuesday – October 13th

Hazard Communication/Global Harmonization

8:30 am - 11:30 a.m.

This session covers the basic requirements of 29 CFR 1910.1200 and the revised provision of the standard as they relate to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Attendees will learn about the revised standard, which will include chemical hazard classification, written program requirements, container labeling and other forms of warning, safety data sheets, and associated phase-in dates for the new requirements under GHS.

Noise and Hearing Conservation

1:00 - 4:00 p.m.

This session covers the requirements of 29 CFR 1910.95 as it applies in General Industry. It will explain the composition of sound, the instrumentation and criteria used to determine excessive noise levels, the effects of noise on the hearing mechanism, personal protective equipment, and basic noise control methodology. A discussion of the hearing conservation requirements will also be discussed. These requirements include employee exposure monitoring, audiometric testing, hearing protection, employee training, and related recordkeeping.

Wednesday – October 14th

Powered Industrial Trucks

8:30 - 11:30 a.m.

This session covers the basic requirements of 1910.178. Attendees will learn about the basic aspects of powered industrial trucks (primarily fork lifts), operator training requirements, safe truck operations (including traveling & safety belts), equipment modifications, and associated hazards. This course will not provide operator certification under 1910.178(L).

Fire Protection and Egress

1:00 - 4:00 p.m.

This session will cover 1910, Subpart E: Exit Routes, Emergency Action Plans, and Fire Prevention Plans and Subpart F: Fire Protection. Participants will learn how to develop and implement effective Emergency Action and Fire Prevention Plans, as well as maintain exit routes. Additionally, classification of fires, fire extinguishment methods, fire detection systems, and employee alarm systems will be addressed.

Thursday – October 15th

Crane Standard for Construction

8:30 - 11:30 a.m.

This session addresses major changes which took effect on Nov. 8, 2010 and provides a basic overview of 1926, Subpart CC, including mobile cranes, tower cranes and certifications requirements for crane operators. Topics will also include requirements for riggers, electrical hazards, and crane inspections.

Confined Space in Construction

1:00 - 4:00 p.m.

This session explains the regulations regarding entry into and working in confined spaces in construction. It will also explain the difference between the General Industry and Construction confined space standards. Topics include confined spaces found in construction and the hazards associated with them, developing a written program, training employees, permit systems, rescue, and employee participation.
